shorn of all subtlety and led naked out of the protective fold of educational research literature there comes a sheepish little fact lectures don't work nearly as well as many of us would like to think
george cobb 1992 this book contains activities that guide students to discover statistical concepts
explore statistical principles and apply statistical techniques students work toward these goals through the analysis of genuine data and through interaction with one another with their instructor and with technology providing a one semester introduction to fundamental ideas of statistics for college and advanced high school students workshop statistics is designed for courses that employ an interactive

learning environment by replacing lectures with hands on activities the text contains enough expository material to stand alone but it can also be used to supplement a more traditional textbook some distinguishing features of workshop statistics are its emphases on active learning conceptual understanding genuine data and the use of technology the following sections of this preface elaborate on each of these aspects and also describe the unusual organizational structure of this text

responding to the demands of the framework for teaching english years 7 9 within the context of the revised national curriculum the level best series offers a carefully structured and motivating approach to english for key stage 3
